Description: Proposed is the installation of street lighting on 128th Street from Hickman Road to Douglas Parkway. As proposed, steel poles with double mast arms would be installed in the center median.

Justification: The traffic volume has increased along 128th Street. The existing street lighting is insufficient due to service gaps, and inconsistent set back distances and illumination.

Project Status: Plans need to be developed.

Effect on Operating Budget: Cost to operate street light is approximately \$500 annually.
