Re: 2021 PCC Patch Program Phase 1
Project 2021-016

Dear Property Owner:

Shekar Engineering, a contractor for the City of Urbandale, will be completing concrete street patches this summer in the area from 147th Street to 160th Street and from Maple Drive to Airline Avenue. The Contractor is currently planning to start the first week of May, and the project is anticipated to be completed by September 24, 2021.

Prior to the work starting, a representative from the contractor will be passing out flyers and talking with residents in advance of their work. If a patch is planned at your driveway, the Contractor will contact you prior to that work to coordinate the schedule. There will be periods of noise and some disruption associated with this type of construction. The City of Urbandale apologizes for any inconveniences this may cause.

Please let us know of any celebrations, garage sales, or any other events you plan on hosting by emailing your name, address, phone number, and date of the event to my email below by **May 1, 2021**. We will try our best to work around your schedule.

Construction updates will be available at www.urbandale.org under “City Projects or <https://www.urbandale.org/204/City-Projects>”. Please visit the site for the latest information on progress and construction updates. If you have any questions or need any further information, please or email me.

Sincerely,

Kristin Brostrom, P.E.
Assistant Director of Engineering
