Re: 2022 PCC Patch Program Phase 1
Project 2022-010

Dear Resident:

The Concrete Contracting Company, Inc., a contractor for the City of Urbandale, will be completing concrete street patches this summer in the area from 140th Street to 148th Street and from Briarwood Lane to Wilden Drive. The Contractor is currently planning to start the first week of May, and the project is anticipated to be completed by September 23, 2022.

Prior to the work starting, a representative from the contractor will be passing out flyers and talking with residents in advance of their work. If a patch is planned at your driveway, the Contractor will contact you prior to that work to coordinate the schedule. There will be periods of noise and some disruption associated with this type of construction. The City of Urbandale apologizes for any inconveniences this may cause.

When you receive notice of the work from the contractor, please flag any irrigation, dog fence, robotic mower line, etc. that may be in the right of way and impacted by the work.

Please let us know of any celebrations, garage sales, or any other events you plan on hosting by emailing your name, address, phone number, and date of the event to my email below by **May 1, 2022**. We will try our best to work around your schedule.

Construction updates will be available at www.urbandale.org under “City Projects” or <https://www.urbandale.org/985/Annual-PCC-Patch-Program>. Please visit the site for the latest information on progress and construction updates. If you have any questions or need any further information, please or email me.

Sincerely,

Kristin Brostrom, P.E.
