

The City of Urbandale has hired Alliance Construction Group for the Aurora Ave Pavement Preservation project from 86th Street to Tanglewood Dr.

Monday May 15th we will begin this construction project in your neighborhood. Our team and subcontractors are committed to completing the project with minimal disruption to your daily routine as possible. However, this is still construction in front your house and your neighborhood.

We want to make you aware of some potential disruptions that may occur during the project:

- City Ordinance quiet hours: 9:00pm to 7:00 am Monday through Sunday
- Irrigation: Please mark / flag any irrigation lines or heads, invisible fences in the right of way or work area. As they may be in conflict of construction. Iowa One Call services don't mark any of these nor privately owned utilities.
- Vehicle or Pedestrian access issues or concerns: Please reach out to the city or me. We will be installing temporary sidewalks for pedestrians as needed. Please exercise caution in all areas as this is a construction area. Parking will be slightly congested in the area as some driveways will be blocked due to construction and other residents will have to park near others houses and on surrounding streets. Please do not park in front of other people's driveways or sidewalk accesses or mailboxes.
- If your mailbox needs to be relocated for construction, we will remove the existing mailbox and place it near the front of the garage/house for storage. It will be replaced upon opening of that phase. A temporary cluster mailbox will be placed at the beginning or end of the construction phasing.
- Landscaping around the mailbox or in the ROW will be in the construction area. If you would like us to salvage any plants or landscaping block, rocks, misc. items (besides the mailbox) please reach out so we can coordinate these items.
- Garbage and Recycling collection: Please have your bins at the end of your driveway on your normal collection day. We will have someone come out and move them as needed for pickup and put them back at the end of your driveway. We will mark your address on your trash and recycling containers.

If you would please send an email with your email and or cell phone number(s) for contact information. Include your name address as well please.

Approximate addresses range impacted this phase / stage:

--

Thank you for your cooperation and understanding during this construction project. If you have any questions or concerns, please do not hesitate to contact us.
